PLENTY UNLIMITED INC.

Job Application for Staff Software Engineer

To: Hiring Manager at Plenty

About Me

I'd like to present myself as a candidate for the Staff Software Engineer position advertised on your website. My name is Dieter Buys, I have an extensive background in software engineering and specifically in building robust, scalable service-oriented systems in the cloud. I am passionate about finding ways to leverage software innovation for the greater good, and Plenty may very well be the ideal company within which to realize that goal.

Why Plenty?

I first discovered Plenty through the fantastic news about your strategic partnership with Walmart. I had been searching for a company that is leading the way in vertical farming, as it represents an exciting intersection of sustainability, technical innovation and public nutrition. Vertical farming really is an idea whose time has come, and I think Plenty is a very promising rising star in this emerging sector.

I trust you will give my application due consideration and hope to hear from you soon.

Sincerely,

Dieter Buys
